[My Portfolio](#)

Romelyn Resell

Motivated and curious frontend development graduate with a background in IT and hands-on experience from both development and the service industry. I bring solid skills in HTML, CSS, JavaScript, React, Jest, Vite, API integrations, and version control, combined with analytical problem-solving and strong teamwork abilities. My experience includes freelance work in data analysis and AI training, as well as sales and customer service at Avis. I am adaptable, detail-oriented, and creative, with a strong drive to keep learning. My goal is to grow a career in web development or IT consulting, contributing to innovative and user-friendly digital solutions.
